Services

JIT, just in Time Floorstock Programs- No matter where you are located in the United States, we can tailor a stocking program to suit your needs. Whether it's delivered straight to your work cells, stockroom or production floor.

Same day service- All stock items are available for same day shipment at no extra cost. Even if it's not in our stock, many items can also be shipped the same day if they are within our reach or on a drop ship basis.

Inspection- Our in-house inspection includes Mil-I-45208, first articles per AS9102 and calibration per ANSI/Z540.

Kitting- We specialize in kitting components in accordance with your quantity and packaging requirements.

Certification- We are currently registered to AS-9100 and ISO 9001-2000 under the ANAB scheme by Det Norsk Veritas (DNV), a known leader in worldwide registration services.

Building

With over 25 years of experience, **Air Components** continues to lead the way with cutting-edge innovations in supplying product to the Aerospace Industry. Keeping current with technology and trends, we are helping our customers secure their position in the industry by helping build the future together.

Air Components is your number one source for fast, reliable, quality fasteners and hardware. We provide a complete line of aerospace standard fasteners, mechanical and electrical hardware, and hydraulic fittings. We not only stock product but also have the resources to supply virtually any desired commodity.

We are a highly-focused company that takes pride in fast, efficient customer service. Our friendly staff has the knowledge and determination to provide you with the "right part, right now". We also have extensive knowledge in manufacturing as well as the distribution of our product lines.

We seek long term trading partners with which we can develop their confidence and trust in our services. This partnership will insure our customers remain competitive in an ever-changing marketplace.
